genv Cheat Sheet

***

To use with **conda environments**, simply activate your conda environment, before making a genv environment.
***

monitoring   `devices` `envs`

HINT: use 'watch' command to monitor in real-time:
watch genv devices

making/removing genv environments

`activate --name {anything}`

`deactivate`

assigning GPU(s)

`attach --index {GPU-ID}`

`detach --index {GPU-ID}` `detach`
